AUTOPOL[®]

The Autopol[®] I, II, and III Automatic Polarimeters

Select the Model

That Best Suits your Application and Budget

Autopol I

- The Autopol I is our entry-level polarimeter model designed for:
 - University Education
 - Starch Analysis
 - Lactose in Milk
 - Flavors
 - Chemicals
 - Natural Product Research
 - Invert Sugar
 - Vitamins
 - Fragrance
 - Limited USP Monograph Compliance

Standard Features: 0.01° Arc Accuracy, 589nm fixed wavelength, built in thermoprobe for temperature measurement, Windows Embedded for direct connection to the network server and flexible USB printing.

Optional Features:

- 100mm or 200mm TempTrol™ heating and cooling: 15°C – 40°C ±.2°C
- AP Accuracy Option: 0.004° Arc Optical Rotation is wavelength specific. For USP Pharmaceutical, Rudolph recommends 0.002 accuracy for measurements ±1.000 degrees
- USR Resolution Option: 0.01, 0.001° Arc Selectable

Autopol II

The Autopol II offers the same standard and optional features as the Autopol I, but allows greater wavelength flexibility.

Standard Wavelengths: 589nm and 546nm

Optional Wavelengths: 365nm, 405nm, 436nm, 578nm, 633nm

A total of 2-4 extra wavelengths may be ordered at time of purchase or added later when needed.

Optional Features:

- 100mm or 200mm TempTrol™ heating and cooling: 15°C – 40°C ±.2°C
- AP Accuracy Option: 0.004° Arc Optical Rotation
- AP Resolution Option: 0.01, 0.001° Arc Selectable

Autopol III

The Autopol III is Rudolph's entry level pharmaceutical solution:
Accuracy: 0.002°C, 0.2% above 1°
Standard Wavelengths: 589nm and 546nm

Complete Accessory Package with IQOQPO documentation, 2 user selectable cells and 1 NIST traceable calibration standard with NIST Certificate.

Optional Features:

- 100mm or 200mm TempTrol™ heating and cooling: 15°C – 40°C ±.2°C
- Optional Wavelengths: 365nm, 405nm, 436nm, 578nm, 633nm, (up to 4 wavelengths may be selected or added later.
- AP Accuracy Option: ±0.002° up to 10° Arc, ±0.004° 10° - 89° Arc
- AP Resolution Option: 0.01, 0.001, 0.0001°, Arc Selectable

Select a Temperature Solution

1. Temperature Measurement Only

As shown in Figure A, the Autopol I, II, and III come with a Temperature Probe so that sample temperature can be measured, displayed, and printed.

However, if your product requires Temperature control, then we recommend a temperature control solution shown below.

For university education and research, starch analysis, invert sugar, flavors, fragrances temperature control is not required and temperature measurement is normally sufficient for these applications.

Figure A

2. Temperature Control With Water Bath

Rudolph Research Analytical jacketed cells come standard with quick release fittings which allow cells to be easily removed from the sample chamber.

Tubing is held in place by rubber gasketing on top of the trough and the door. Optional stopper (choose "S" after the cell part no.) for evaporative samples (Figure B).

Temperature control is obtained through the use of an external water bath and a jacketed cell (Figure C). This temperature control solution is popular for very high temperature applications.

Figure B

Figure C

3. Patented TempTrol™ Technology Eliminates the Need for a Water Bath. Here's how the TempTrol System works:

TempTrol Peltier Active Surface

TempTrol heating and cooling Peltier transfer surface

TempTrol Passive Surface

TempTrol cell with mating heating and cooling transfer surface

Temperature Measurement Port

Temperature Measurement Probe

Place the TempTrol cell in your TempTrol equipped Autopol® sample chamber to measure to within $\pm 0.2^\circ\text{C}$ of the USP, EP, JP or BP specified temperature (normally 20°C or 25°C $\pm 0.5^\circ\text{C}$)

Temperature is selected via touch screen. Temperature selection of 20°C shown at left.

Select temperature up to 40°C

Water Inlet

Probe NIST Thermometer

Rudolph provides a temperature validation cell with every TempTrol system. The temperature validation cell along with an optional NIST traceable thermometer is designed to validate the temperature control performance of the polarimeter and cell to $\pm 0.2^\circ\text{C}$.

Select the Accessories

To meet your application

Selection

With over 50 cells to choose from, Rudolph Research Analytical has a cell to meet every application.

Rudolph offers cells with volumes as small as 100 micro liters and cell lengths from 10 mm to 200 mm. Rudolph 40T and 316 stainless steel cells come with lifetime warranty against accidental breakage.

Autopol I and II

The Autopol I and II come standard with Package A, which includes:

Package A

2 lamps and a Type 14 center fill glass cell with a 100 mm length and a 6 ml volume.

For validation purposes Rudolph recommends a NIST Traceable Calibration Standard with NIST Certificate to ensure your polarimeter is operating according to specification. (Choose Package B)

Package B

Autopol III

The Autopol III comes standard with 2 lamps, 2 user selectable cells and a calibration standard. Although the user may select from any of our 60 plus cells, popular packages (C, D, and E) are shown below. If TempTrol is selected, Package F is supplied.

Package C

Package D

Package E

Package F

Simple Solutions

Set up a Method

Methods

You are in Setup > Methods > Edit

Method Name: **Metrosine** Mode: **Sp. Rot.**

Zero/Rotation Offset: **0.000** Prompt - Sp Rot.

Wavelength: **546** nm Specific Rotation:

Cell Length: **100.00** mm Prompt for Concentration

Measurement Mode: **Multiple** Concentration: g/100ml

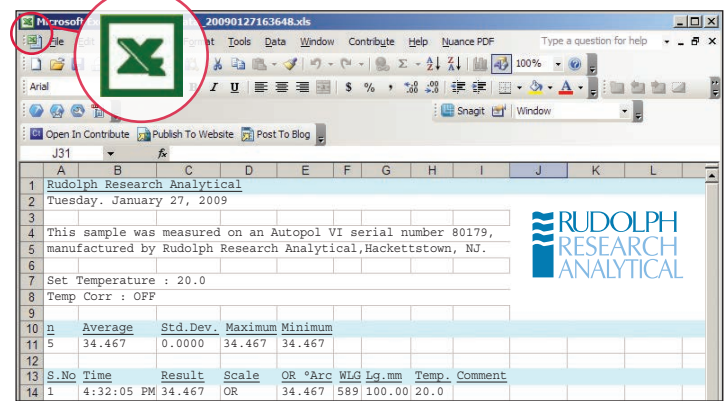

Number Of Measurement: **5** Prompt for Multiplier

Time Delay: **5** Sec Multiplier:

Buttons: Add, Edit, Next, Print, Cancel, Exit

cGMP/GLP Printing

Measurement reports can be saved as an Excel or PDF file and edited quickly and easily. You can import logos and print your company's customized "C of A" directly.

Select a Method

Methods

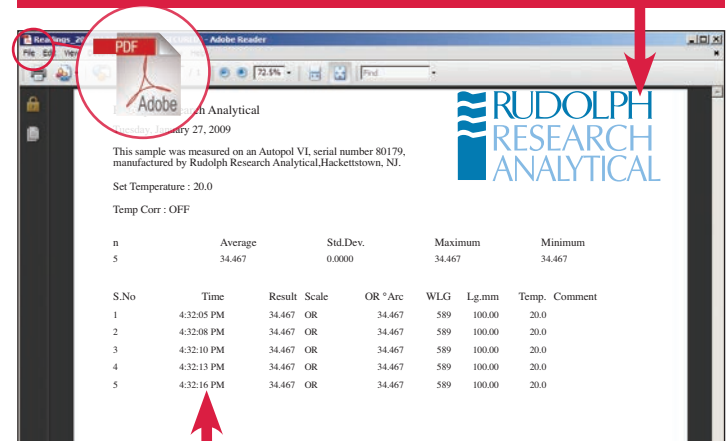

You are in Setup > Methods

Methods List:

- Dactinomycin
- Dextrose
- Finasteride
- Lisinopril
- Lopamidol
- Metaraminol Bitartra
- Methylopatate Hyrdoch
- Methotrexate
- Metrosine
- Sucrose

Buttons: Add, Edit, Delete, Print, Erase All, Exit

Print your customized Certificate of Analysis including your company logo directly from the Autopol® touch screen

Capable of making multiple measurements on a single sample and reporting complete statistical data and all measurement results

Select a Temperature

Methods

You are in Setup > Methods > Edit

Temp Control: **ON**

Set Temp: **30.0** C

Temp Correct: **Off**

Response Time: **2** Sec

Statistics: **On (n-1)**

Range Check: **ON**

Range High: **195.00**

Range Low: **185.00**

Buttons: Add, Edit, Save, Back, Cancel, Exit

Versatile Communication Capability

- Connect directly to Rudolph's service department for remote testing and diagnostics via Internet connection.
- Connect to any Windows® based printer via USB or direct to the server via Windows® Print Library
- Save measurement data direct to your Network/Server
